THE BEST VALUES

Ask any man you meet where the best Clothing Values in Oklahoma are to be had and he will tell you to come to this store. This is the result of long years of experience in buying the right clothing at the lowest price its possible to be had.

We buy direct from the manufacturer. in large lots for cash, thereby getting a lower price than small dealers and saving the discount that the "long time" buyer has to pay.

We are satisfied with a small profit. With us it's not how much can we get for a suit, but how good a suit can we sell at each price. Such business methods have built up for us the largest clothing business in Oklahoma.

NEGRO COTTON PICKERS.

Being Shipped into Comanche County in Large Numbers.

Lawton, Okla., Nov. 3.—The morning train from the south brought in about one hundred colored cotton pickers consisting of men, women and children. The smoker and one-half of the second coach was packed with these niggers. They hailed from all points in Texas, having been sent out by the Fort Worth Bureau of Employment.

About half of them got off of the train at Lawton while the remainder of them went on north. A few of those getting off here got employment and the others took the train west for Frederick and Snyder.

Mr. Johnson, who came up on the same train with these "colud" folks related what he overheard just after they came into the territory. One of the party said: "say, nigger, where is we at?" and the answer was: "Don't you know this is the territory where Birdie McGuire lives." Then the inquisitive colored brother took a long sigh of relief.

It seems that the Republican leaders were not expecting them as the band and their reception committee did not meet them at the train.
